Request for Productions of Documents

In Late November, old desktop was sold on craigslist and DV9000 laptop was sold early December 2012 on Craigslist to buy a newer laptop that could support work and gaming better. Newer/Current laptop, Dell Latitude 6420, was purchased on Craigslist some time before Christmas 2012. Was already running slow with malware at time of purchase, had a virus removal. In May of 2013, was still running slow and found out hard drive was failing. Replaced hard drive.
